<p><b>Why is there Sodium in Perfect Empowered Drinking Water?</b>          This is an excellent question. First let me say that there is a negligible amount of Sodium in each bottle of Perfect Water. The RDA (Recommended Daily Allowance) for adults is 2400 mg. Each bottle of Perfect Water has 18mg. per serving.</p> <p><b>What is the shelf life of the product?</b>          Two years.</p> <p><b>How long does the MBO™ last after the bottle has been opened?</b>          Once you open the bottle you should drink it. However, the benefits of the MBO™ are stabilized in the water and won't disappear. A warning! Don't leave you lid off, the MBO will not escape, but, bacteria from the air can enter your bottle. Put your lid on in between drinks!</p> <p><b>How much of this can I drink a day?</b>          Are there any restrictions to the amount of Perfect Empowered Drinking Water an adult can drink?          Experts estimate that 75% percent of Americans are dehydrated. Dietary recommendations. The Institute of Medicine advises that men consume roughly 3.0 liters (about 13 cups) and women consume 2.2 liters (about 9 cups) of total beverages a day.          So ... 4 to 8 bottles of Perfect water a day should bring your body to a super hydrated state!</p> <p><b>Should I drink this water before or after I exercise?</b>          Perfect Empowered Drinking Water is the perfect companion for your exercise program to keep you hydrated before, during, and after your workout.</p>	<p><b>The NUTRILITE™ brand offers you and your family a complete range of supplements and other products designed to address the nutritional needs of anyone at any life stage.</b></p> <p><b>THE BEST OF NATURE.          THE BEST OF SCIENCE.</b></p> <p>NUTRILITE products offer the best of both nature and science:</p> <ul style="list-style-type: none"> <li>• Nutrilite plant concentrates are made from the <b>finest natural ingredients grown according to sustainable farming principles</b>, reflecting our commitment to the social, economic, and environmental well-being of the surrounding communities.</li> <li>• They are the direct result of <b>extensive research and laboratory analysis, ensuring high-quality nutrient and ingredient combinations</b>, based on proven scientific evidence.</li> <li>• <b>First Multivitamin in existence 1934.</b></li> </ul> <p>Prior to <b>1934</b>, there were no known multivitamin/multimineral supplements. People found it difficult to know if they were getting enough nutrients in their daily diets.</p> <p>Then, <b>Carl Rehnborg</b>, founder of the NUTRILITE brand, created his first nutrition product and became a pioneer in the <b>history of nutrition</b>.</p>	<p><b>How does XS® taste so good with no sugar and very few calories?</b>          XSdrinks use a proprietary blend of Sucralose, Acesulfame Potassium and fruit essences to give the drinks their great flavor without sugar or empty calories. In fact, the calories in the drink come from the 2 grams of amino acids.</p> <p><b>Will the energy effects be decreased if taken daily?</b> No.</p> <p><b>Is it possible to overdose on B vitamins?</b>          B vitamins are part of the group called "water soluble" vitamins. Excessive amounts of "water soluble" vitamins are merely excreted through the urine.</p> <p><b>How much caffeine is in XS Energy Drinks?</b>          All of the XS Energy Drinks, except the caffeine-free flavors, have approximately 83 mg of caffeine. This is the equivalent to a one ounce shot of espresso.</p> <p><b>Why is caffeine in the drinks?</b>          The drinks are ENERGY drinks and in order to deliver energy without loads of calories from sugar, you have to find a way to quickly deliver B-vitamins and amino acids. Caffeine is a great way to enhance performance as well as open the blood vessels so that vitamins and amino acids can quickly enter the bloodstream and give you a boost without the sugar highs and crashes.</p> <p><b>What is in the caffeine-free drinks for energy?</b> You get the same huge taste, premium quality and same B vitamin boost. So, whats the difference? We've removed the caffeine and added Vitamin C to kick your immune system into high gear. So now you can have your vitamins and drink them too.</p>
